The Case

The Casebook of Solar Pons included a map of Pons' London adventures up to that time, drawn by head Luther Norris, founder of the Praed Street Irregular

Comments

- Norris drew The London Map of Solar Pons, with twenty-seven cases spread across its two pages. Many of the cases are represented by some symbol, such as a diamond for 'The Dorrington Inheritance.' This map was also reproduced in an issue of The Pontine Dossier. Unfortunately, I have not yet been able to get a good digital copy made of it.
